

Robert S. LeRoy

Electrical Safety Consultant

Bob LeRoy began his career as a journeyman electrician. With over 50 years in the electrical industry, he has traveled around the U.S and globally assisting clients in all industry sectors with gap analysis for compliance to applicable electrical safety regulations and industry best practices.

Bob also conducts electrical compliance inspections by performing audits and training on electrical safety. He has also done extensive training and development of training content on the NFPA 70 National Electrical Code and NFPA 70E for other training organizations around the country.
