

Wes Mozley

Electrical Safety Consultant

Since 1980, Wes has been with Sandia National Laboratories in a variety of positions - facilities and maintenance management, electrical inspection, electrical design, electrical engineering, contract management, and construction. During her time at Sandia National Laboratories, she has also been an independent contractor consulting and training on safety, NEC, and construction and maintenance management, and doing electrical investigations.

Wes taught part-time at Central New Mexico Community College in Electrical Trades, Safety, Construction Management and OSHA. For much of that time, she also instructed the Electrical Apprenticeship program at Northern New Mexico Independent Electrical Contractors.
