Electrical Safety Consultant

International Brotherhood of Electrical Workers **1993-Present**

Local 595, San Francisco, CA

Electrician: General Foreman

Prime Electric, Inc. **2023**

- General Foreman on a data center

Boston Scientific, Marlborough, MA

- Design build for a two story T.I. with a combination of machine shop and labs on the first floor. The second-floor plan was primarily open office space.

Kaiser Santa Teresa, San Jose, CA

- Chiller installation that required a new 1200-amp distribution board installed and tied into the existing emergency system. The entire emergency room, and a portion of the hospital had to be diverted to a generator source with remote ATS and a back-up generator

365 Main, Chandler, AZ

- 2-story data center with 24 megawatts of Hi-Tek generator power installed, also installed over 100 PDU's and 150 RPP's

Fast, Sandy, UT

- Security upgrade that evolved into a power redistribution and a RPP install
- Collaborated with the facilities manager to bring their data center up to, and exceed, power needs

Yahoo, La Vista, Nebraska

- The first Coop design data center in the US (150,000sq ft). Over 600,000ft of 4" conduit installed in 0° weather. Installed all PDU's and RPP's and 25 megawatts of Cat diesel generators
