

Chris Fink

Electrical Safety Consultant

Chris has over 20 years of experience in the electrical safety field, particularly in industrial and commercial applications. For much of his career he was a Navy Seabee electrician, rising to the rank of Command Master Chief. In that capacity he was responsible for 450 sailors and officers in Command Naval Forces Korea.

From 2011 to 2025, Chris served as the Electrical Safety Coordinator for Hampton Lumber. He created their electrical safety policy and provided safety, training, and auditing support for electricians at Hampton's seven mills. Additionally, he supported engineers regarding NEC and NFPA 70E requirements as new projects were developed.
